## DETAILED ACTION

Claims 1-63 are pending in the application.

### *Election/Restrictions*

Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-12, 30, 31, 36-40, 58 and 59, drawn to the compounds, compositions and method of use of the compounds of formula 1 where G<sup>1</sup> is formula 2.

Group II, claim(s) 1-20, 30, 31, 36-48, 58 and 59, drawn to the compounds, compositions and method of use of the compounds of formula 1 where G<sup>1</sup> is formula 3.

Group III, claim(s) 1-12, 26-31, 36-40 and 54-59, drawn to the compounds, compositions and method of use of the compounds of formula 1 where G<sup>1</sup> is formula 4.

Group IV, claim(s) 1-12, 30, 31, 36-40, 58 and 59, drawn to the compounds, compositions and method of use of the compounds of formula 1 where G<sup>1</sup> is formula 5.

Group V, claim(s) 1-12, 21-40 and 49-63, drawn to the compounds, compositions and method of use of the compounds of formula 1 where G<sup>1</sup> is formula 6.

Group VI, claim(s) 1-12, 21-25, 30, 31, 36-40, 49-53, 58 and 59, drawn to the compounds, compositions and method of use of the3 compounds of formula 1 where G<sup>1</sup> is formula 7.

The inventions listed as Groups I-VI do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Groups I-VI are different significantly in chemical structures. They are consequently separately classified in the U.S. Patent Classification System and require separate searches in the Chemical literature. None of the prior art considers these groups as functional equivalents. Each group can support a patent.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

**Tentative election of a single species within the elected group is further required.**

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
